

STOCKS EMOJI

an app that uses emojis to unfold the stock market

STOCK MARKET FOR EVERYONE

EDUCATE 1 CRORE INDIAN INVESTORS BY 2025

While there is no lack of investors, there seems to be a **lack of investors who truly understand stock market.**

One of the reasons being the communication surrounding it. **Stock market is made out to be nothing less than rocket science.**

There was a huge gap of understanding in the investors.

Stock Emoji aims to fill this gap through an application that does not instruct but explain through a simple emoji analysis

OUR IDEOLOGY

Stock Emoji walks with the investor at every step of the way with manual and auto suggestive action plans.

We just don't provide financial information but also provide expertise to break it down through scores and emojis for users to understand

By providing research information at a very low cost, Stock Emoji breaks down the research barrier to investing.

We lay down fundamental reasoning behind the emotion which makes any decision informative.

We break down complex information through visuals and graphs that help with understanding and retention.

We are unbiased. We give you information and analysis as well the expertise to decide for all companies alike.
